

Nadia Tonizzo

A Tiny Shift In Connecting Schools:
Start Up Committee Member

For the majority of my adult life, I ran my own massage therapy business which was an incredible gratifying experience. Then, as happens to many, my life made a detour that had me struggling with the challenge of a serious illness for a few years.

Now that I am on the healing side of that illness, I look forward to the future and whatever adventures and learning experiences they may bring.

I have a B.A. in English, currently work in the Health Food Industry and enjoy meeting the public.
